

## The Activities what I do.

I am just simple worker, I work in a carpenter shop building wooden expanse for goods transportation.

I do few things for our world,I also collect the rain water and water my plants, I keep to collect the plastic & Glass packing goods and put them in the collection center.

I donate money to buy food for poor citizens. I do not waste water (we have in Israel big problem with water, very few rains during winter season ).

I can not plant tries as I wish in my garden because of the water shortage.

I do not waste paper as possible to protect the trees from cutting.

This are some of the activities I do.
