Article Title: Importance of Clean Living

How to protect Human Rights and Our Mother Earth?
Is as simple as this... You ^{must} have the discipline because
without discipline some people doesn't have a care or
don't know the importance of our Earth...

To protect that factor we should follow Rules and
Regulations, or sign that we have seen in a road...
We must separate the biodegradable to non-biodegradable
for we able to protect our environment... Keep our
clean and green environment...

All people must have the ability to know the
importance of everything that we see especially the
God's made.

Trust, Faith in God, Care and Discipline is
the most attitude that we must have for us to be
able to protect Human Rights and our Mother Earth...
