

Mission Possible – Starring: Everyone

Do you ever dream of becoming a superhero? You can make your dream come true starting now; instead of saving one person, the whole world depends on you! Don't hesitate, there are lives at stake. Before you embark on the mission of a lifetime, here are some tips for you,

- Wherever you are, turn off lights that are not in use.
- Eat veggies; meat is overrated.
- Don't use air conditioning/electric fans continuously. Paper fans are made for a reason.
- When showering, turn off the water while putting on soap.
- Help the needy people. Use your money wisely. Hint: Donate.
- Be optimistic and enthusiastic. There are people living in worse conditions.
- Computers are tools, not toys.
- Give praises and positive comments. No vulgarity/put-downs.
- Cooperate with your peers.

There are countless ways to help our planet; if every individual does one thing, the Earth can return to its original condition in no time. Get down to business!
