

After watching the film listening the songs, I feel so horrible! I really pray it will not happen to me, to any family, to any loved ones and to everybody.

Seeing our environment and earth is worst than before, I think we should educate everybody to know how to care for the environment.

As the economy and science/technology improve, also provide the protection needed for the environment.

If possible discover life meals that is environment friendly, fuels, and things used in the factory and industry.
