

## **A SACRED PLACE FOR A UNITY OF THE WORLD**

By: Student  
School of Allied Medicine  
Universidad de Zamboanga  
Zamboanga City, Philippines

For me World Peace should be a sacred place to live, to have a unity to each and everyone. Earth is created by GOD with full of love and peace and GOD is sacred for all of us. I believe that when it is created by GOD it is all sacred; GOD treated each human being equally but people tend to forget it because of crab mentality, wants fame and greediness that love only his/her self. Many people are hard to deal with like the kidnap for ransom they tend to dirt the image of our country that's why other races don't want to go here in the Philippines because they are afraid that it will be the cause of their death. I am a Muslim one but honestly I disagree the rules and regulations of the abu sayyaf, for me they are not the real Muslim, they just want money. Allah says in the Qur'an that he will reward the person who will protect his family, religion and in the cause of his lord but abu sayyaf are putting dirt in foreigner's mind that's why many people look Muslim's as the creator's of the war. True Muslim don't see whether you are a Christian or a believer of other religion. An Islam symbolizes peace and created us one and be unite.

World Peace is very easy to attained if we unite and work together to maintain the happiness, love and empathy to each and everyone. It is a oneness of individual around the world to have tranquility among each other that prevent development of conflicts, misunderstanding that causes war.

We elected our president for them to manage our country but the fact is, change start in ourselves. If we have the love, care and promote peace we can change or we can contribute to the World's peace.

Being a student nurse we give care and respect to our patient and people surround's us through it I can say that we are symbolizing world peace. In the near future if we will go abroad we can promote peace by meeting other races and make them see that we are hospitable people that we are willing to serve and promote peace.

If we want change let's be unite and have a dream for sacred place for the unity of the world.
