

HOW TO SAVE THE EARTH

Baridji, Fatima Jamak S.
BS Nursing
Universidad de Zamboanga
Zamboanga City, Philippines

Earth today is in the middle of crisis as well as human beings. It's not a secret to us all that majority of us are suffering from the crisis of almost everything of our daily needs like food, clothing, shelter and most especially in clean water. Those are the problems we are facing now. What about Mother Earth? We always neglect earth, we always think of ourselves. We are the major responsible for earth's damages. Without the earth, we are all nothing. Now the earth is suffering from air pollution, water pollution, floods, soil erosion, mudslide, landslides and others.
