In my own understanding from the word extrajudicial killing, it is a form of the people was shot to death. They will throw to the place where is not familiar to us. Without knowing, after how many days/weeks, the police will encounter the place of the incident, the victim was already dead, doesn't know who is the suspect. But we identified the body of the victim when investigated his/her body. In this case, there's so many ways of making this "extrajudicial killing" not only for shooting the incident but even in the rape case and etc.

The "extrajudicial killing" was known to us, it is a simple caled as salvage. Many people was accused in this case, and aside from this, they have many prisoner by doing this situation.
