

## **EXTRAJUDICIAL KILLING**

Sharmane Y. Sakilin  
School of Criminal Justice  
Universidad de Zamboanga  
Zamboanga City, Philippines

In my own understanding from the words extrajudicial killing, it is a crime scene which if attended in the commission of the crime. It is “salvage” in my own understanding. Judicial, the people committed this crime is automatically punishable by law because of the intelligence. Negligence and intent why the people to do the crime of extrajudicial killing because of three factors that allow the people do the same crime that he want. In Judicial killing, the victim is already dead because in my understanding from salvage they throw the victims after he was gone. Many cases of judicial killing they have rape after the victim was already rape, they throw the criminals.

Extrajudicial killing is the salvage cases. The criminal have the facilities to do what they want even though he already know what they are doing, they do it because of intent and intelligence. That was the factors that criminals have strength to die. A person to commit the crime scene because of that many innocent person that does not know. Extrajudicial killing is the one case that big punishable by law because the person of the victims that they salvage is already dead. And it accomplished the intent to do the salvage, not just frustrated and attempted but at the words extrajudicial killing you wanted to kill that person you want to kill, so the cases you committed is the highest punishable.
