

EXTRAJUDICIAL KILLINGS

Ferrer, Edmar K.
BS Criminology
Universidad de Zamboanga
Zamboanga City, Philippines

Extrajudicial killings these are murders of people that most of the times are not given justice. Some people would commit such crime just for their benefit. Like the Maguindanao Massacre, many people were killed. People that would go against to certain person that are powerful would end up like this incident. People who are doing this kind of crimes are really not afraid, have no conscience. They will just do anything to attain their goals.
