

EXTRAJUDICIAL KILLINGS

Gerardo F. Evangelista Jr.
BS Criminology
Universidad de Zamboanga
Zamboanga City, Philippines

Extrajudicial killing means people are killed without attaining due process of law, even they are not solved. They use their power to kill people; they hire gun men to do this job. Like what happened to late Senator Benigno Aquino Jr. He was trying to fight for the rights of every Filipino against the former President Ferdinand Marcos, wherein the latter declared Martial Law. He was exiled because he was a threat to the Marcos regime. When he returned home after his exile in the United States, he was assassinated. There were hired gun men to kill the late Senator that was waiting for him at the airport. But from the death of the late Senator Aquino, the Filipinos went revolt against the Marcos regime. From his death, the freedom of the country was regained, and democracy again ruled in our country.
