My stand with regards to the police and military abuses someone of the police and military are not following the rules regards the police some of them is abuses the person because of their position most probably abuses the poor person. They did not respect them. Specially vendors in the side walk. They just kick them. Most committed the abuses the highest position like a highest officer regards also a police man if he is a higher position he should not respect the lower position when I tell my cousin told me about the abuses of the policeman the higher police officer in pagadian city. He was committed a crime regards also our military one of the abuses because he committed wrong full act. The abusayaf or magdalo groups are connection the higher officer of the military because of the money.
