Zamboanga City

Human rights it is all about the right of the man. It is our right to do what we want but not against the law. The people has the right or power to fight for their rights. The government in one society doesn't have the full control on the people around them.

In all the things the government has made a law. We us a society or as a person has the right to agree or not. Like in the "Bill of Right". The patient has the right to know about has the right to denied any treatment or medical procedure.
