As I have known, human rights are rights and freedoms of an individual. Example is where you can defend and protect yourself from people who try to hurt you, physically and emotionally. You also have the right to live in a peaceful community and environment.

In our community, especially women and children experiences abuse and violence. And most of the time the government neglects these cases.

I want that everyone must be protected from any harm. Especially we must be defended and given assistance by our government.
