What is human rights? Do I have my own rights? The law stated that everyone have his rights. The right to choose whether it's good or bad, it's still our right. The right to speak to express our own thoughts, our knowledge, our belief; are some of the rights.

We practice our rights in our day to day lives. We must practice our rights to live freely and peacefully. Expressing oneself is our right. Now I am expressing myself through writing. Poverty, I think is the root of all our problems. Why are there people committing crimes? Stealing properties? Child labor? Prostitution? These are some problems we are facing in our society. Government should focus more on the development of the people. How? By starting with education. Education can lead us to success in the future.
