First of all I would like to thank my teacher for giving me a chance to take this opportunity to write the human rights of the students. First and foremost, I would like to start the rights as a student in our school. The rights of having a wash day not only Saturday but we want also every Wednesday because it's not easy for us to wash our uniform. And some of the students suggest to have a wash day or in civilian every Wednesday.

The rights of privacy like having a long hair but not that long like the hair of the girls. Maybe 1 inch to 3 inch only because we are now a college student and the course we taken is not SCJ we are a COMSCI students. Don't treat us as Elementary or High School to cut our hair. We can be students even though our hair is quite long but we will do our responsibility as a student to finish our study.

Second, in our neighborhood not to have a gossip or "chismis" it can make people quarrel.

Third, are the human rights here in our country Philippines. I want a peace between Filipino to Filipino. They are killing each other just in simple things. If I have a chance or if I have a fighting spirit to tell everybody to stop fighting I already do it for the sake of our country.
