I know there is human right in this world. Because if you have a land in this part of you have a human right to make a big house in this land. And then after you make your house finish you have to make display inside your house or, make that boarding house. And after you that boarding house you have to put any kind of display inside your house and out your name at the top of your house and half of your land you have to make garden or rice field and other land, make a rest house of fish pond and any kind of work you have do in your land.
