

Human Rights

Haradji, Rhatmalyn U.
Department of Civil Engineering
Universidad de Zamboanga

We all know human right in our country is important to us, because, with this we can understand of each other & at the same time we can cooperate. Like for example in school, student must be follow the rules and regulations, because that's the rules. The guard should be check the Bag of students every entering the school. Because, its there rights at their position as a guard but, student sometimes they get mad because they don't want to check their bag & etc. because, we want to enter immediately. Another rule in school. On Saturday because on this day students are allowed to wear a civilian attire, but we cant wear everything that we wanted to because, guard keep on questioning if you were used a sleeveless or chinilas. Hopefully, students they have rights to have that. Because, for me Saturday is fashion day we need to impress our self that we are able to used different kinds of dress, we can do different styles, because at our age now. We know the rights to our self. The good to our self. About the promissory in every term examination, I hope we are able to get a promy, because not all the time our allowance is sent on before exam.
