

## **HUMAN RIGHTS**

Sapie, Junior L.  
BS Criminology  
Universidad de Zamboanga  
Zamboanga City, Philippines

Human rights as what I know are the basic protection of people against violence. These are rights that are entitled to every individual upon they are born. These rights serve as protection for every person, protection against any violence or harm that may incur.

What are our basic rights? The right to life; the right to have our own beliefs and religion; to right to equality or treated fairly; the right of shelter, food and good health. These are just few of the basic rights we have.
