

POLICE BRUTALITY

Rexie B. Manangan
School of Criminal Justice
Universidad de Zamboanga
Zamboanga City, Philippines

Nowadays, power is the one who have the right especially position in the government. And nowadays people run for the position in the government not to help the country but the worst is, they run for the position for the power for the money and most of all to control the weak people. As I observe in the past election, money is the best way to have the power. The poor people cannot run because they are afraid to run because of the power of the government official. Also, the government official can easily kill a person without fear that he/she can be put in jail because government official can pay the damage he/she have done. Even the court he/she can turn the decision of it because he/she have the money and power. Because as they say, nowadays, only money has the right way to decide and all of that is in the government officials. The abuse of the government officials are not only in the people even in our country. Our country is so poor at this time because of the abuse of the government official in the corruption. The government officials have so many projects but only few of their project we can see. But some of their project is not to help people in the country but to help themselves to become more rich and powerful.

So please, next time in the election give your vote to the person that you think can serve the people and our country. Because we need a good leader that is willing to serve all the people. Especially the weak or not powerful people. WE need that person to help improve our lifestyle and our country.
