The military and police use their power and authority to abuse other people. Police abuses the community the community by corruptions like for an instance, there are some police officers will ask money on some motorists if they found out there is no license to show them. Police officers must bring peace and order in the community. They should be enforcing the law.

And as a future law enforcer, I will show the people that I will not be a corrupt officer and I will not violate any law.

Do your job well, love your job, do not use your power to abuse and violate rights of other people. We will be happy if we see our community is peaceful.
