

THE EFFECT OF WARRANTLESS ARREST

Lactuan Jr., Danilo P.

Universidad de Zamboanga
Zamboanga City, Philippines

Many people who are innocent are being arrested and jailed. Sometimes these people are arrested without warrant of arrest. They don't even know that this is against the law. They don't know their rights. There are people who want to testify for some crimes but they are afraid for the fact they will also be jailed. And be accused of part of the crime. It is not fair to do that, without due process of trial.

We should know our rights, especially in cases like this. And authorities abusing their power should be jailed not those people who are innocent.
