

## **PEACE AND HUMAN RIGHTS**

Bryan Samad

Computer Engineering Department

Universidad de Zamboanga-Ipil

Zamboanga Sibugay Province, Philippines

A peaceful mind is a peaceful earth. Anyone could bring the virtue of peace, self-discipline and respect to one's self will lead to the essence of peace to the portals of our home. Implementing and applying respect to one another's right and beliefs within community will bring peace to the world.

We are living in a democratic society. Every human being has the right to do what is right as the answer of Miss Australia in Miss Universe Beauty Pageant 2010 "Freedom is Choice".

Fighting for human rights may come in different ways. The best situation or instances for that is the hostage crisis in Manila last August 2010. The hostage taker is fighting for his right and trying to find justice in losing his job. Sad to say, he made a wrong move that's why the bloody situation occurred. If only ample attention was given, the right choice may be made.
