To live in harmony with family, friends and the environment means peace. The act of being understanding and being sensitive to the needs and feelings of fellow citizens already convey peace.

It is every man's aspiration to have in life, to enjoy freedom by saying out loud things in mind, doing things that the heart desires. Human right is the term is used to defend human freedom as well as destroying it. People tend to give more importance to particular human rights issue than employing it.

Let peace reign over abuse and hatred!
