Peace and human rights is what all people want. Peace must start within us because if we know what the true meaning of peace is, we can communicate better with each other. Peace must be planted in our heart and mind because peace will lead us into a peaceful community. Peace will teach us how to respect other people, especially here in Mindanao, peace must be established here so that the Muslims and Christian community will unite together and show respect to each other and live in a peaceful and wealthier Mindanao.

If we don't place peace in our mind and heart we will never learn how to respect people like what happened in Quirino Grandstand where tourist bus carrying Hong Kong Nationals were hostages by a Filipino Police man. The police didn't think that it will happen to our country. But sad to say that 8 of the Hong Kong Nationals were killed by Capt. Mendoza, our economic status especially in tourism just drop because of what had happened, many flights had been canceled because of the hostage crisis.

So if we apply peace in to our self, we must feel it, love it so that we can get respect the right os other people and live in peaceful world.

Now let's talk about human rights, for me human rights is a law recognizing the right of national sovereignty, traditionally focused on relations between states, not on the ways in which states treated their own citizens. Which means its right to treat people into a good y specially to women we must treat them like a rose, we must love a ~respect their rights, so that we have a good relationship of ea h' 01:1 another. Respect is very important in human rights becaus' . I /the first value we must apply in human rights so that we can lea n ow to respect the rights of each one another.
