

## **PEACE AND HUMAN RIGHTS**

Louie Jean M. Pacumba  
AB Department  
Universidad de Zamboanga-Ipil  
Zamboanga Sibugay Province, Philippines

Fellow countrymen our country today is suffering from the malignant sickness that gently kill our country a people suffer from poverty and injustices because of the corruption made by the crocodile in the government how long we suffer for this kind of life that we have right now many politician will say I do for a change but when or even what you can start we are always been like this hearing there's promise and then nothing but all of the problem is not all blame to the leader of this country but for us citizen of this beloved Philippines. We want a great country but we can never be great unless we will be united unless we will change for the better unless freedom is fully implemented and exercise and human rights are respected so many question when do I start change? What do I do to start it? But the answer is in us there is no change happening we in our self will not do something for it you question yourself but I am only the tiny species of this society? Can I not do for a change but no you can! To be a good citizen a good mother, child, father, sister, and others in your country you do a change. Why war is always with, us why there is killing? why our government seems doing nothing to this problem? can we stop this? We cannot stop this but we can prevent it through ourselves. Through love, respect and kindness, we can walk the road to peace.

God said love one another but where is love? I cannot see. I love this country and I do care for this country. I hope there are many who feel the same way as I do because together we can make changes. Changes for peace, for the love of our country.
