Mostly define peace as a state of tranquility and orderliness in a certain community or area. Peace starts from within us. Peace connotes beauty and light, such as the saying, "if there is light in the soul, there will be beauty in the person". Appreciating beauty and acknowledging not so good things demonstrate positive character of our soul.

Accepting each other's differences and showing consideration by respecting different perceptions bring about peacefulness in the group.

Understanding the right of other individual makes peace more achievable. It seems hard but it is attainable if only everybody will join hands and start peace at home because a peaceful nation is made up of peaceful homes.
