We all want peace! We are ready to die for our country in the name of peace. This is such a noble desire yet only few can proactively commit themselves to peace promotion.

We want a great country but we can never be great unless we will be united, unless we will change for the better. However, there is no change happening. I am only a tiny species of this society? Can I not do something for a change, of course, I can! To be a good citizen a good mother, child, father, sister, and others in your country you do a change.

Every child has a right to education, a right to play and enjoy this world but many children do not enjoy this privilege. They are working in factories and other work in the field.

Each and everyone, educated or not, rich or poor wants peace. God shower everybody many blessings and help when we need Him. Asking forgiveness to other you've wronged is asking God's forgiveness. That's why Peace and Human Rights must be in our mind and in our soul always. We should remember it always and not take it for granted.
