Philippines are said as a democratic country, follows certain rules governed by people. It is well-known because of its amazing nick-name as "Perlas ng Silangan". Free from any hazardous events, conflicts and war against other countries. It is a country having people who have pure Pilipino blood flowing in their veins accompanied with Filipino values. It is a country having harmonious ways of relationship among each people, and having been practiced with a positive values in life. But that was a hundred years ago; years of our forefathers, our ancestors. Change have come and our nation also undergone changes. And look! What happen today? So much problem, so much obstacles, so much conflicts, crisis, economic problems and poverty that affect our peace and order situation mLL6h more on the image of our country. We are experiencing the affect of it. We are very much affected.

And one of the problems that we are experiencing nowadays was the problems with regards to the PEACE AND HUMAN RIGHTS. Unmaintained peace and UNPRACTICED OF HUMAN RIGHTS belong to the issues in this generation. Time to time there is a controversy regarding this matter. Conflict is some of the causes and affect of the issue. An added burden to the problems of society as well as to the whole world, for the reason that peace is not maintained so much more on the unpracticed human rights.

Our nation desires to rose, urged to be lift-up and wants to prosper but because of the issues regarding this matter, it loses its way to the top. This serves as block, a hindrance and an obstacle.

PEACE AND HUMAN RIGHTS are everybody's concern. It should be maintained and balance for us to be able to live harmoniously with the rest of God's creation but, how many of us spend time and take an effort to do it? How many of us to trying to maintained it? This is the things we really missed in our everyday life. The things we forgot to do, we forgot to manage, and we forgot to practice.

Stop! Look and listen to what is happening around us today. Open your eyes widely so that you can totally see the entire image of our country. Uncover your eyes so, you can hear loud and clear the supplication of affected persons. Where is peace? Where human rights"? All have disappeared and vanished.

So, I, you, we...let us come together, and help one another. Let us find a best solution to cure the disease of our nation. Let us make our way to success if we want change, let change be it!
