# PEACE AND HUMAN RIGHTS

Sweet Grace Husain
Computer Science Department
Universidad de Zamboanga-Ipil
Zamboanga Sibugay Province, Philippines

Why do we fight in wars in the name of PEACE? Being a student, I cannot really understand. I think, if we will only work together, no lies, no greed, no injustice, we could overcome the troubles and live in peace. I can only hope and pray, I know I could die and be at peace, but that would be simply an easy way out for me. However, I'd like to be around when Peace does come, as it surely will. Let us "Love one another," as Jesus told us to do.

Peace and harmony is the way to a successful nation where unity is strong and people live equally working together to achieve unified goals. I always imagine what a great place earth to live in, with no war, no fighting, no hostage drama, no evil thoughts and selfishness. Everybody can live free in this place with peace of mind.

For me, Peace is simply Love and Human Rights is simply Freedom.
