“How to save the earth”

We can save the earth if all the good things that we have now in this earth will continuing and so that the earth will be save and also if we want to save the earth we should be a good person and we will help each other person and do good for the sake of the earth.

We should do all the things that the earth will be save, like for being helpful to the person who is elder than you, especially to the people who make our nature to be look good. And if we want to save the earth we should not doing bad in this earth. We should not do the bad things that our earth will not be look bad.

As a student, if we don't have earth. We are not here now, and if we don't have earth, we are now living in the other planet. We should stop all the bad things in this earth like for being selfish if we want the earth look better we should clean our nature and stop the pollution that the person cut the tree in the forest. So that the earth will be save.
