### **“How to save the Earth”**

To save earth we need to plant trees so that if storm will come there will be no flood, and no pollution, smoke of the companies, so that we can feel a fresh air and we need plant trees in our mountains so that it can prevent landslide. And avoid cutting of trees.

Why do we have to save the earth? We need to save the earth so that we can have a home, and we have food to eat. We can't live without the earth, because earth is our home and we can have food from it. Earth have fresh air and foods. That's why we need to save the mother earth.
