“How to save the earth”

God bless us life is not for nothing, but to have a goals in life which to love and care for what's he create. Save the earth is of our mission, to save the earth, embraces overall objectives which include: enhancing the quality of our global environment for the benefit of all people and promoting a better understanding of the effects our society has on the long term health of our planet.

To save the earth foundation's research endeavors center on the selection and founding of environmentally beneficial programs within our institutions of higher education. In order to achieve our objectives/ goals we need to continue support of vital research programs including: seminars and workshop to coordinate and concentrate the research potential of associated campus.

To save the earth we need to have perseverance in life to accomplish whatever problems in our community. We need to cooperate to each other. We need to stop the illegal work of those people that destroying our environment such us cutting of tree, using dynamite in fishing and etc.
