Human Rights

Human rights are rights inherent to all people or human beings, whatever their nationality, place of residence, sex, or national origin. We are equally entitled to our human rights without discrimination as human beings or persons.

Respect to Human Rights

We should respect the human rights of a person or us human beings without getting confronted because as people, we are the same and have the same rights to live in this country and to become happily ever after in this world.

World Peace

Having world peace is important to our nation, to the world, and especially to the Philippines and also to us human beings. World peace is the ideal of freedom, peace and happiness among our nation and people. World peace refers to the peace of our nations to achieve this world peace we should not engage in violence, abiding the laws and regulations within the nation. My message to this nation and especially to the Philippines is to spread the universal peace and prayer. May peace prevail on earth and embrace the people in this earth. We should have world peace for us to enjoy our life in this world. There is a saying that "peace cannot be achieved through violence, it can only be attained through understanding"....
