Zamboanga City, Philippines

As we stand, we stand of what we know is right. As we live, we live with freedom in our hearts.

Human right has led us to the benefit of a person to live freely and not afraid, but human rights is no excuse to anyone that is ignorant to any laws. Human right means EQUALITY to what and where we came from, human rights are for all.

Human rights should not be abusive or disrespectful it should be used of what is right, to have a fair decision and to have a fair trial to any people commits mistakes. An individual is entitled of human rights, a right to gain respect, a patient that has right to refuse, a child that has the right to live and an elderly person that has the right to gain care.

We as an individual that understand and see what is the world now, human rights has its own disappointments, we all see that the world grew with more crimes, more countries lose their prides, for any individual who became more abusive and for the people who has POWER in their hands shows no EQUALITY on how we should gain human right for all.

Most of us now have suffered from the lack of them throughout years; the lack of human rights has a lot of effects on people lives.

s a student nurse who give care for a patient, a patient deserve the right to seek care and attention, the right to be diagnose correctly even with their financial status.

As of now, and as a witness to any violation of human rights, people gone to lose hope for any rights they should have, for any respect they should gain and for any equality that should be done.

Freedom that shows courage, we as a Filipino, as a person, should be courageous enough to gain of what we should have for a long time, not just to gain respect to anyone but also to give respect to everyone, be not abusive of having the rights but be fair of giving the rights of all human, as we all know to gain human rights we should start by giving human rights. Not just by saying equality should gain but rather equality should give and show for all individual.
