

My Role

By: Mujaal, Nurmina
Department of Civil Engineering
Universidad de Zamboanga
Zamboanga City, Philippines

As students there are many privileges given to us. One is our fare we have this discounted fare. It is applied to all transportation/vehicles. Which we considered to be a great help for us students.

As a Muslim, though discrimination is present in our society we appreciate that our government consider our celebration such as Hariraya and other important events. Not all Muslims are bad, true Muslims know Allah and do not allow violence. I respect other religion as much I respect my beliefs.

As member of our society I have responsibilities and obligations, I have to do what is right what is good for my community. I should be an asset not a liability. In this I will be model to my fellow youth.
