Today Zamboanga City is face with kidnapping cases and sudden shooting incidents in some areas of the city. The local authorities doing everything to put a stop to all shooting and killing especially in the villages of Talon-Talon, Mampang and Arena Blanco. The feuding families and groups to stop taking the law into their own hands and end these killings.

To attain PEACE we need an awareness of the human consciousness. When peace arrives there will be no government because the needs not be a form of control. Everyone will understand the concept. Oneness and that every one of them are connected to one another, or the fact that we are all the same. Consciousness, everything on earth. Peace might happen in our reality if we choose it.

As a student, I can do peace by giving good example to my neighbour, friends and new acquaintances. Show and respect them in terms of their opinions and ideas avoid listening bad gossips and hearing. If I hear comment bad things about another person, I should keep it to myself only and not telling another person concern to avoid feud among them that may result to quarrel and killings. Aside from that do charity event to help the needy by giving them food and shelters. I believe lack of daily necessities to people create disturbance in our community that may result to stealing and eventually killing to rob money for food due to hunger and other necessities.
