As students we don't have the right to express our feelings, to express what we want to express. It is stated in our student handbook the rights of every students, and one of the rights there is the right to speech or the right to express our feelings.

As expected all schools have their own policies and they cannot avoid there that there are students that are against in their policies, like for example lately the female students of CITTE department must wear black sock or else they can no longer enter the school campus, they implement that policy without the knowledge of all students that are not aware of the said policy.

As I can see the reactions of students they are all angry, they take actions or that, they go to the OSA office and they complain their about the new policy.

They have the right to complain, to express their feelings about the new policy. According to them the policy is okay to them but before they implement it, they should make sure that all students must be aware of it.
