As a student for me, the most important right as a student is education because education is the key to our own success and other people will respect us. As a student, I have the right to take time to think when I have exams and quizzes. As a student I have the right to change my mind. As a student also, I have the right to make a mistakes because nobody's perfect in the world only God and as a student, I tend to commit mistakes whether I'm at home or in school. As a student, I have the right to study my lessons and to make absences in the class. The right to participate in any activities in school. Then right to communicate through language and to express my feelings to a person. The right to be treated fairly inside the classroom not only in the classroom but also outside the classroom. The right to think freely and the right to be involved in love life. And to be happy for me to have inspiration in my studies.

This right we have in our self help us to make things or do things what we want for free and no one can stop us from doing it. Because if they do against our right, as a parson and as a student also. Whether they are rich or poor and no matter what their religion, age, nationality and intelligence.
