As a human being we live in this world with the same status in life that God gave us and we have the freedom to do what we want as long as it is good and all humans are born free and equal in dignity and rights. They are endowed reason and conscience and should act towards one another in a spirit of brotherhood. And human rights are those rights that privileges and protected by the law.

I have many experiences based on my daily life being a student. Just for an instance, when I once had an argument with one of my teachers. As a result, I had a failing mark not for a reason of low grades but for the reason of the argument we had.
