"HUMAN RIGHTS"

In the world today, there is a plethora of right issues, varying from simple and clear cut offenses to cases where the distinction between two sides is more subjective. This includes issues such as Child Labor as well as Children's Rights.

-CHILD LABOR-

Many children around the world face similar scenario when they are forced to work and provide for their family instead of going to school. The issue of child labor demonstrates that ideals such as the innocent and carefree life that children in most industrialized nations are able to enjoy do not exist in the poorer parts in the world.

-CHILDREN'S RIGHTS-

Are the human rights of children with particular attention to the rights of special protection and care afforded to the young?

Including their right to association with both biological parents, human identity as well as the basic needs for food, universal state paid education, health care and criminal laws appropriate for the age and development of the child.
