Media blackout refers to the censorship of news related to a certain topic, for any reason. A media blackout may be voluntary, or may in some countries be enforced by the government or state. The latter case is controversial in peacetime, as some regard it as a human rights violation and repression of free speech.

Press blackout is a similar phrase, but refers specifically to printed media.

For example the scenario in Quirino grandstand, where in many lives are destroyed but not our countrymen but hongkong nationals, it is the worst tragedy that happened in our country, not only Pilipino people are affected but only who have been lost their love ones especially the hongkong nationals, by this dilemma we can say that news black-out is needed to implement in terms of this sorts of happenings, because of live news, the hostage taker is watching what will be going to happen because there is a television on that bus, it is the rights of the police to maintain news black-out but no one listening to them mostly the media department, in this cases we need to have news black-out for the better imbestigation or rescuing somebody on having a serious scenario.
