Education is every man's treasure. It is very much important in our live. Each of us wants to be in school to learn many things. It gives us the path to success. It leads us to a bountiful tomorrow wherein you will live your life with duties and responsibilities.

Education is also a way to eliminate poverty. Educated people can find job easily. They also live in wealth. They are respected by the people they knew. They can represent their self to other people with no shame. Educated people are known in our society, because education leads people to popularity.

Education is not only for rich people. Even poor people can be educated not only the rich people. Poor people are the people who are willing to study. They struggle so hard to achieve their goals in life.
