

LOVE THE EARTH

Bandian, Sitti Soraya B.
BS Nursing
Universidad de Zamboanga
Zamboanga City, Philippines

Love the earth, people living on this earth should love the earth because it is very important to the people like me. Earth is our temporary home we live for a while. To love the earth like care for our community, you have to clean the environment. Because earth is a very important thing to people, because we live here on earth, like how to love ourself.

On earth we live with our family we live happily. They know how to love our Mother Earth. We are always keeping things that belong to the place to keep. We always plant tree. Always clean the community.
