According to my first semester instructor in L.T.S., we have 30 kinds of Human Rights and it should be followed because this is one of our laws. I can remember some few kinds of human rights: 1) right to life; 2) right to equality; 3) right to remedy; 4) right to education; 5) freedom from religion; 6) right to rest and leisure; 7) right to privacy; 8) freedom from discrimination.

Human Rights are essential to each of us because this law protects us from unfair people. If we do not have Human Rights I think some people will not survive. We must respect this law because it is for our own good and we must be a good citizen.
