Peace is a simple word, yet has a big role in ourselves, in our community, in our country, fellowmen, especially in our world, for us to have the so-called “World Peace”. And the word “Peace” has several definitions and meanings in order for us to understand and to give help in promoting “World Peace”.

In order for us to have world peace, we must have it first within ourselves for us to promote peace with our fellowmen and it would be the start of being united with one another and within our country.

World peace will give us happiness and we will be free from war. That is why we need to have love, understanding, care and patience to have and promote peace.
