Zamboanga City

World peace is a peace to everyone we can have peace if have big love in our hearth to our countrymen. Peace starts in our own self. First become everything we do in can affect to everyone we should have peace to our family in own house. So that the bond of our family still strong.

To our countrymen we can have peace thru communication we have peace talk like here in Mindanao. If there is love there's is a peace on to all I believe we can have peace if we are hand in hand to mover and do have peace to the world.
