We can have this peace if we have faith in God and we must know how to handle every situation we encounter. Many people say that we do not have the chance to have world peace.

Maybe because they think that many people do not cooperate and interested to listen to the government and do not know how to follow the rules and regulations in their respective places. One example is in the provinces of Jolo, Sulu and Basilan. The rebels are not afraid to kill and they only know how to destroy a place and want the government to listen and give them everything they desire. We, as citizens, must start peace in our own homes.

Maybe the government should listen to the rebels and give them what they want but not everything. In that case they can avoid destroying things and killing people.
