

World Peace

Marie Ann Brooks T. Romarate
Bachelor of Science in Nursing
School of Allied and Medicine
Universidad de Zamboanga

What is world peace for me? World peace starts with us. As individuals, we have our own attitude, belief, and religion. Each must have a peace of mind and most importantly, respect for all to attain world peace. People should not fight; there should be no robbers, rapists and other bad people around us. Even if we have tribes, we can have unity and be able to help each other in the community.

As a human being my responsibility and duty is to be a good model to my neighbors, a good example in the community and the country because peace always starts with us.
