All human live in societies, is important to set up rules of behavior within these society so people treat this fellow human being equally. These are commonly called human right. I believed every human should have right to be treated for whatever race you are and the right to have own beliefs and religion and right to speak. Is very important that each citizen must obtain these privileges and equal opportunities.

Human right describe equal right and freedom for everybody by the fact of being human without destination of any kind of race, color, sex, language, religion, political or other opinions. However, the lack of human right has a lot of effect on peoples live. Human right are what makes us human, when we speak the right to like or develop or lies.
