

OUR MOTHER EARTH

BSN Student: Guancoy Teo
School of Allied Medicine
Universidad de Zamboanga
Zamboanga City, Philippines

Our mother earth is the best one creation of our God. She is the one who care and protect for us without mother earth, the trees, mountain, animals and the people are nothing!

She is the reason why we are still here in the world and why we are still alive. Our mother is our home, all of what we have seen in this world are also a creation of God, we must take a lot of care for it, but because of what we have done, our mother earth is now in danger. It is now surrounded by the pollution, it needs our help and we should help our environment. If we don't mind it we are also killing ourselves.
